CAREER OBJECTIVE

Passionate Backend Developer with expertise in building user-friendly web applications. Excited to collaborate, solve challenges, and explore new technologies while staying updated with industry trends to create seamless digital experiences.

SKILLS

Front-end: Next JS, React, Redux, TypeScript, JavaScript, Tailwind CSS, HTML, CSS, REST APIs.

Back-end: Node.js, Express.js, Mongoose, JSON Web Token (JWT).

Database: MongoDB

Other Skills: Git, Github, Firebase, VS Code, Vercel, Figma, Pixso, Postman

PROJECTS

1. Bicycle Store (Online bicycle store)

[Livelihood](#) | [Client Side Code](#) | [Server Side Code](#)

Overview: Bicycle Store is an e-commerce application that allows users to browse, order, and manage bicycles with secure authentication and a responsive design

Key Features:

- The application provides a role-based dashboard for admins and customers.
- Facilitate secure online bicycle purchases for attendees with multiple payment options.
- Integrated payment gateways, and efficient product management functionalities.

Technology: Redux, RTK query, ShadCN/UI, Node.js, Express.js, Mongoose, SurjoPay (Payment Gateway), React-router, mongoDB, JWT, Tailwind CSS.

2. Fine Med Medicine Shop (Online Medicine Shop)

[Livelihood](#) | [Client Side Code](#) | [Server Side Code](#)

Overview: This project is an online medicine website built using the MERN stack. It provides a platform for customers and pharmacies to interact, get medicine in online.

Key Features:

- Create, view, and manage courses for both customers and pharmacies
- A modern, responsive frontend for an online medicine shop built with Next.js, Redux Toolkit, RTK Query, Tailwind CSS, and Mongoose (for backend integration). Secure payment method integration.

Technology: Redux, RTK query, Node.js, Express.js, Mongoose, SurjoPay (Payment Gateway), React-router, mongoDB, JWT, Tailwind CSS, Next JS, SSL Commerz.

3. Luxe Looks (Beauty service Web Application)

[Livelihood](#) | [Client Side Code](#) | [Server Side Code](#)

Overview: A modern and user-friendly platform that connects certified beauty experts with clients seeking personalized beauty services — whether at a salon or from the comfort of their home.

Key Features:

- Create a Professional Profile with portfolio, specialties, and certifications
- Set Availability & Manage Appointments in real-time

Technology: React, Tailwind CSS, Node.js, DaisyUI, Firebase, React-router, Express, mongoDB, JWT, Swiper, Framer motion
